BETTER SAFE THAN SORRY

PROTECT YOUR BUSINESS WITH ADVANCED CYBER SECURITY SOLUTIONS.

LUCID

DID YOU KNOW...

On average, a **ransomware attack** occurs every **11 seconds**

95% of cyber security breaches are the result of human error.

Since the Australian parliament introduced the Notifiable Data Breach (NDBS) scheme in 2018, data breach reports have risen by a shocking **712%**

PROTECTING YOUR BUSINESS HAS NEVER BEEN MORE IMPORTANT.

ALIGNED WITH THE BEST TO IMPROVE YOUR BUSINESS CYBER RESILIENCE.

Lucid IT Solutions are fully aligned with the Australian Cyber Security Centre's (ACSC) cyber security framework for SMEs. This means you're working with a team of experts who live by the Essential Eight guidelines.

|			
APP CONTROL	ADMINISTRATIVE PRIVILEGES	MICROSOFT OFFICE MACROS	USER APPLICATION HARDENING
PATCH APPLICATION	OPERATING SYSTEMS	MULTI-FACTOR AUTHENTICATION	DAILY BACKUPS

IT ALL STARTS WITH A STRATEGY.

THE EVER-EVOLVING JOURNEY TO A STRONG DEFENCE

Delivering the best cyber security solution isn't a 'set it and forget it' solution. With cyber criminal activity evolving at a rapid rate, your strategy needs to do the same.

First, we'll assess your current security posture. Then, we'll develop a tailored strategy to optimise your business security.

Once everything's deployed, it's we'll manage and maintain, ensuring your defence systems never let their guard down.

Assess

Optimise

Maintain
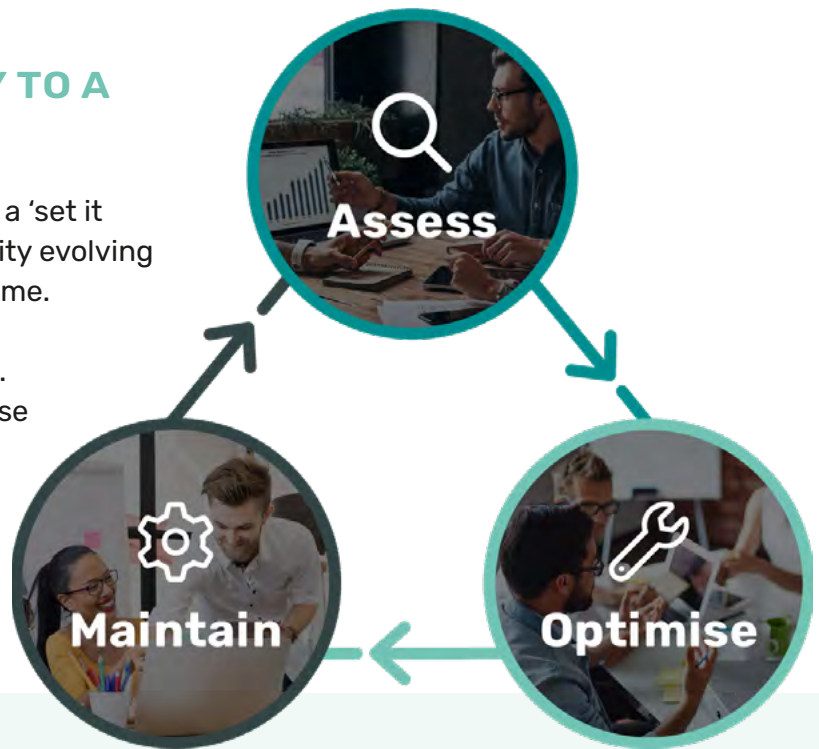

HOW WE CAN HELP.

CYBER COMPLIANCE AUDITING & REPORTING	$1500*	We will audit your cyber security & provide you with a comprehensive report. *Starting from price.
ESSENTIAL 8 ALIGNMENT & STRATEGY		Depending on the outcome of your audit, we will provide you with a tailored onboarding strategy to ensure your business is compliant - costs will vary.
CYBER RISK REMEDIATION & MAINTENANCE	$50	CYBER RESILIENCE PER ENDPOINT/MONTH

Upgrade your business to Resilience+ for $90 per endpoint/month

Resilience+ includes Extended Detection Response (XDR) & a 24/7 Security Operations Centre (SOC). While Resilience+ is recommended for all businesses, it is mandatory for some insurances - particularly industries with high risk profiles (for example, finance and healthcare).

→ Unsafe websites

APPLICATION WHITELISTING

→ Zero trust security/ application whitelisting
→ Prevent install of unauthorised and malicious software
→ Track and control access to company data and applications
→ Mitigate the risk of data theft

MICROSOFT INTUNE

→ Enforce cyber controls in Microsoft applications
→ Secure company owned devices
→ Manage and secure BYOD devices
→ Manage company-owned phones and tablets
→ Force data encryption
→ Track devices
→ Remote wipe data

DNS FILTERING

→ Protect your users from phishing, malware, ransomware, and more
→ Web content filtering
→ Enforce Google SafeSearch
→ Detailed logging and reports
→ Off-site protection

DARK WEB SCANNING

→ Identify credential compromise threats with the Dark Web
→ Credential protection and monitoring

VULNERABILITY SCANNING

→ Discover and report cyber risks across all of your network
→ Proactive fortnightly network scans
→ Remediate vulnerabilities before attackers have a chance to exploit them

BUSINESS CONTINUITY

→ A business continuity solution that protects:
  → Servers
  → Files
  → PCs
  → Microsoft E-mail
  → Microsoft Teams
  → Microsoft SharePoint
  → And more!

NEED MORE?

Included in Resilience+

XDR & 24/7 SOC

→ Extended detection and response capabilities
→ 24x7 Security Operations Centre
→ Incident response services
→ Threat detection across Office365, Azure, and AWS footprints
→ Monitor all user activities across endpoints and cloud systems to detect anomalies

→ Root cause analysis across all attack vector and automated response capabilities
→ Proactively detect data breaches and impersonation attacks

Additional Services

Password Management

→ No more remembering passwords
→ Manage all passwords from the one place
→ Ensure employees practice great password hygiene
→ Use unique passwords for every account
→ Protect your sensitive data
→ Share passwords simply and safely
